KOKO AG
Earth's Own Growing Solutions

Standard coco substrate bag

70/30

Product Description

item GHL : 120-120-021805

- **Dimensions** (inflated): 100 x 18 x 13 cm (23.4 L)
- Ecological and renewable substrate
- Material derived from coconut by-products
- Stable properties and slow decomposition of the material
- **Washed** (contains few salts and phenolic compounds, CE of Starting pressure: 0.5 (±1) mS/cm) and with **8 drainage slots**, therefore ready for planting as soon as inflation is complete
- **Mixture** of fine and coarse substrate increasing **water retention capacity**
- Recommended for **soilless vegetable crops** with a need in water more marked
- **Options on request:**
  Pre-punched planting holes

Chemical properties	
pH	5,5-6,5
EC	0.5 (±1) mS/cm
